## BOOK SYNOPSIS

ORGANIC CHEMISTRY, Second Edition - the first mechanistic-oriented book written at a level that organic chemistry students will understand! Specifically, the focus on mechanisms is a unifying theme, rather than just an organizing principle.

Organizationally mainstream, it is unique in bringing in mechanisms as a unifying principle, and reactions are organized by mechanism type not by functional groups. And now, text/media integration has never been so seamless with the introduction of Organic ChemistryNow for ORGANIC CHEMISTRY, Second Edition. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.
