BOOK SYNOPSIS

The Silent Timer™ is the ONLY timer made with tests in mind and has several features to help you practice your time management. One feature allows you to enter your test time and the number of questions for your test. The timer then tells you how much time you may spend on each test question. As you move through your test, the timer updates time available per question in real-time. The Silent Timer™ serves as the ultimate time management tool for taking tests. You may use the timer as a simple countdown / count-up device, or utilize the advanced test management features. If your test does not allow multifunctional timers, The Silent Timer™ also comes with a simpler Bonus Timer that is completely silent and counts up & down. This way you get the best of both worlds: The Silent Timer™ for practice and the Bonus Timer for test day.
